

COLOURS BY NATURE for plant-based Wood Oils & Finishes

Woodcraft Guild ACT Inc - May 09

Proposed Agenda

1. Intro. to CbN and Natural Paints & Oils
2. Based on our understanding of your needs present a range of Natural Oils, Waxes & Varnishes
 - Product Types
 - Selecting the right product
3. Break
4. Hand's-on oiling demo with any of your wood samples
5. Questions – anytime, however it would be great if you could keep you questions relevant to the current topic area

Our understanding of your requirements

- your mission is to foster and develop woodcraft and encourage excellence in the ACT & Region
- some of you have used LIVOS Kunos Oil and would like to know more about Kunos Oil
- learn about the many types of natural finishes we have available; their selection, application and maintenance
- find out why plant-based finishes offer the best environment and OH&S credentials

About Modern Natural Paints & Colours By Nature

- Natural Paints are human's first paint.
- Traditionally locally made from local plant and earth ingredients – but since the advent of oil & industrialisation, paints have been dominated by petrochemicals, synthetics, very volatile solvents & the like.
- However, Modern Natural Paints have made a comeback; with over 40 years of plant chemistry to offer a full range of safe & eco-friendly painting solutions.

About Modern Natural Paints

Non-toxic – they are safe for baby's nursery and pregnant mum's as well as being tolerated well by most asthmatics and allergy sufferers. No toxic off-gassing.

No harmful solvents – they do not contain toluene, xylene, etc, and/or are totally free of VOC's (Volatile Organic Compounds).

Colour pigments – typically based on naturally occurring substances such as earth and metal.

Performance – Bio Wall Paint can be scrubbed clean and has a hiding power of 98.3%. Tested by CHOICE Magazine Dec04 – for best hiding paint . VOLVOX Clay Decor Paint released in 2008 has a hiding power of 99.5%.

Environmentally Friendly – Products use organic (wherever possible) and natural materials such as plant oils and resins, lemon peel oil, essential oils, asbestos free talc, china clay, iron oxides, metal pigments, linseed oil, carnauba wax.

Real GREEN Paint – Natural Paints are naturally GREENER, unlike so-called petrochemical based green paints, natural paints are manufactured from ingredients which are more ecologically balanced.

About Modern Natural Paints & Colours By Nature (CbN)

- In early 1986 following poor health experiences from synthetic products, we started looking for a safe and eco-friendly alternative; so in 1997, we started CbN. *Born out of NEED not GREED!*
- In 2008, with over 15 years of technical knowledge & experience, coupled with a growing grass-roots customer base & strong main-stream interest in “Greener” paints, we re-structured CbN & launched a new business strategy.

About Modern Natural Paints

Non-toxic – they are safe for baby’s nursery and pregnant mum’s as well as being tolerated well by most asthmatics and allergy sufferers. No toxic off-gassing.

No harmful solvents – they do not contain toluene, xylene, etc and/or are totally free of VOC’s (Volatile Organic Compounds).

Colour pigments – typically based on naturally occurring substances such as earth and metal.

Performance – Bio Wall Paint can be scrubbed clean and has a hiding power of 98.3%. Tested by CHOICE Magazine Dec04 – for best hiding paint . VOLVOX Clay Decor Paint released in 2008 has a hiding power of 99.5%.

Environmentally Friendly – Products use organic (wherever possible) and natural materials such as plant oils and resins, lemon peel oil, essential oils, asbestos free talc, china clay, iron oxides, metal pigments, linseed oil, carnauba wax.

Real GREEN Paint – Natural Paints are naturally GREENER, unlike so-called petrochemical based green paints, natural paints are manufactured from ingredients which are more ecologically balanced.

Wood Guild Inc ACT – Product Types

OILS

- LIVOS Kunos Oil
- LIVOS Ardvos Oil
- LIVOS Meldos Oil
- LIVOS Linus Oil
- BIO Priming Oil
- BIO Natural Wood Oil
- BIO Teak Oil
- BIO Natural Timber Oil
- VOLVOX Hard Oil
- VOLVOX Wood Oil

WAXES

- BIO Antique Wax
- BIO Hard Floor Wax
- LIVOS Gleivo Beeswax

COMBO OIL & WAXES

- VOLVOX Hard Oil Wax

❖ Oils

❖ Waxes

❖ Combo

❖ Varnishes/Lacquers/high solid & Oil

film finishes

❖ REJUVENATE

❖ Cleaning

❖ Polishing

❖ Thinners

VARNISHES & FINISHES

- VOLVOX ProAqua range
- LIVOS Kaldet Stains
- BIO Wood Varnishes
- BIO Floor Varnish

REJUVENATE

- Use Original Oil
- LIVOS Bivos Oil
- LIVOS Gleivo Beeswax

CLEANING

- BIO Timber Care Polish
- LIVOS Trena Cleaner*
- BIO Furniture Polish

POLISHING

- LIVOS Bivos Oil
- BIO Furniture Polish
- BIO Japanese Seedlac

THINNERS

- LIVOS Salvos Thinner
- BIO Thinner

Wood Guild Inc ACT – Select Product Review

OILS

- LIVOS Kunos Oil
- LIVOS Ardvos Oil
- LIVOS Meldos Oil
- LIVOS Linus Oil
- BIO Priming Oil
- BIO Natural Wood Oil
- BIO Teak Oil
- BIO Natural Timber Oil
- VOLVOX Hard Oil
- VOLVOX Wood Oil

WAXES

- BIO Antique Wax
- BIO Hard Floor Wax
- LIVOS Gleivo Beeswax

COMBO OIL & WAXES

- VOLVOX Hard Oil Wax

❖ *“Yeah, I got some of this Live-Offs*

Coo- no’s Oil from a woody mate, he

said it gives a beaut finish! ..”

So what’s with the funny names?

✓ LIVOS derives brand names from

the Celtish culture and language to

interpret colour, sheen, scent and life!

i.e. Kunos means “High”

VARNISHES & FINISHES

- VOLVOX ProAqua range
- LIVOS Kaldet Stains
- BIO Wood Varnishes
- BIO Floor Varnish

REJUVENATE

- Use Original Oil
- LIVOS Bivos Oil
- LIVOS Gleivo Beeswax

CLEANING

- BIO Timber Care Polish
- LIVOS Trena Cleaner*
- BIO Furniture Polish

POLISHING

- LIVOS Bivos Oil
- BIO Furniture Polish
- BIO Japanese Seedlac

THINNERS

- LIVOS Salvos Thinner
- BIO Thinner

OILS

- LIVOS Kunos Oil
- LIVOS Ardvos Oil
- LIVOS Meldos Oil
- LIVOS Linus Oil
- BIO Priming Oil
- BIO Natural Wood Oil
- BIO Teak Oil
- BIO Natural Timber Oil
- VOLVOX Hard Oil
- VOLVOX Wood Oil

WAXES

- BIO Antique Wax
- BIO Hard Floor Wax
- LIVOS Gleivo Beeswax

COMBO OIL & WAXES

- VOLVOX Hard Oil Wax

❖ How do I apply it?

✓ brush, applicator, dip, or cloth

✓ usually 3+ coats

✓ burnish in the last coat or every coat

✓ burnish with polish pad or wet/dry

✓ apply & dry above 12 degrees C

✓ must remove excess/absorbed oil

within 20 minutes

✓ allow 24 hours to dry

VARNISHES & FINISHES

- VOLVOX ProAqua range
- LIVOS Kaldet Stains
- BIO Wood Varnishes
- BIO Floor Varnish

REJUVENATE

- Use Original Oil
- LIVOS Bivos Oil
- LIVOS Gleivo Beeswax

CLEANING

- BIO Timber Care Polish
- LIVOS Trena Cleaner*
- BIO Furniture Polish

POLISHING

- LIVOS Bivos Oil
- BIO Furniture Polish
- BIO Japanese Seedlac

THINNERS

- LIVOS Salvos Thinner
- BIO Thinner

OILS

- LIVOS Kunos Oil
- LIVOS Ardvos Oil
- LIVOS Meldos Oil
- LIVOS Linus Oil
- BIO Priming Oil
- BIO Natural Wood Oil
- BIO Teak Oil
- BIO Natural Timber Oil
- VOLVOX Hard Oil
- VOLVOX Wood Oil

WAXES

- BIO Antique Wax
- BIO Hard Floor Wax
- LIVOS Gleivo Beeswax

COMBO OIL & WAXES

- VOLVOX Hard Oil Wax

❖ Can I use it on all types of wood?

✓ generally yes, but *always do a test*

application! Limited use on veneer

timber products.

✓ consideration needed when using for

cabinet interiors

✓ wood must be dry < 12% moisture

✓ certified as suitable for children's

toys.

VARNISHES & FINISHES

- VOLVOX ProAqua range
- LIVOS Kaldet Stains
- BIO Wood Varnishes
- BIO Floor Varnish

REJUVENATE

- Use Original Oil
- LIVOS Bivos Oil
- LIVOS Gleivo Beeswax

CLEANING

- BIO Timber Care Polish

WAXES

- BIO Antique Wax
- BIO Hard Floor Wax
- LIVOS Gleivo Beeswax

COMBO OIL & WAXES

- VOLVOX Hard Oil Wax

❖ Should I thin it?

✓ depends, ...

✓ LIVOS specify no more the 5 -10 % dilutions.

✓ many fine woodworkers thin up to 50% but apply many more coats to compensate.

✓ only natural thinners, either; BIO or LIVOS thinner.

VARNISHES & FINISHES

- VOLVOX ProAqua range
- LIVOS Kaldet Stains
- BIO Wood Varnishes
- BIO Floor Varnish

- BIO Hard Floor Wax
- LIVOS Gleivo Beeswax

COMBO OIL & WAXES

- VOLVOX Hard Oil Wax

❖ Kunos Oil is a Natural Oil Sealer, so it can be use as final treatment?

✓ yes, in fact it's a more cost effective option when treating large areas.

✓ compatible with the LIVOS oil

range, so you could apply 2 x coats of Ardvos, or Meldos or Linus and finish with Kunos.

✓ generally not compatible with the BIO or VOLVOX oils range

VARNISHES & FINISHES

- VOLVOX ProAqua range

- LIVOS Gleivo Beeswax

COMBO OIL & WAXES

- VOLVOX Hard Oil Wax

❖ Maintenance

- for cleaning oil finishes,
generally avoid, but if necessary

use a gentle PH neutral cleaner

like LIVOS Trena or solvent

polish like BIO Furniture Polish

- for high use areas, periodically

use an emulsion like BIO Timber

Care Polish

- for rejuvenating and polishing

hard to beat LIVOS Bivos Oil Wax

VARNISHES & FINISHES

- VOLVOX ProAqua range
- LIVOS Kaldet Stains
