

## Box Making with Fred Buckley – April 2016

Fred delivered another great Box making course for members in April. This one was a full week affair rather than successive Wednesdays. The format enabled more continuity and excitement. A shared experience in being frustrated, getting measurements exact and pushing ones skills to places we never thought possible ... and the results were fantastic. The Shed again proved to be a fantastic space for coming together with a shared project. Every Box was different – ideas abounded and most of the boxes were near finished in the week.

And there was a little time for relaxation ...
