

HUNTER REGION WOODTURNING DEMONSTRATION

JOEY RICHARDSON (England)

Saturday 13th October
2018 in East Maitland

Back by Popular Demand. Joey Richardson is an internationally acclaimed turner and sculptor, renowned for her delicate and richly hued wood forms. Her unique sculptures are inspired by nature, life experiences and imagination. Joey's work is instantly recognisable - combining her unique talents in the use of piercing, air brushing, colour, texture and artwork.

A Scholarship from The Queen Elizabeth Scholarship Trust (QEST) and Carpenters Company funded development studies in America where Joey was able to develop her amazing talent by working with people such as the late Binh Pho. In 2012 Joey was made a Liveryman of the Worshipful Company of Turners Company and in 2015 she was awarded the prestigious QEST Award of Excellence.

Joey's sculptures are held in many collections around the world. She regularly teaches and demonstrates her techniques globally and her enthusiasm for passing on knowledge is infectious. Joey is one of the leaders of the artistic wood movement which is developing in the UK. She is currently planning, with QEST, a large international wood art exhibition to be held in London. Here is an opportunity to see how Joey creates her masterpieces in our own backyard.
