

Investment Expenditure Proposals – Procedures

Following is a process agreed by the Guild Committee for assessing proposals for large expenditures and investments so the Guild can make consistent, transparent and affordable decisions.

The following procedures are designed to complement the form for all submissions to the Committee for expenditure over \$500.

Procedures

1. All proposals for expenditure on investment in equipment above \$500 must be in writing and sent to the Guild Secretary.
2. The Guild Committee will review and make comments and recommendations in relation to the proposals.
3. The Committee will consult members for more information if required.
4. Communication on the lodgement of proposals, seeking more information and conveying decisions will be through the Secretary.
5. Final decision-making rests with the Committee.

Members of the Guild Committee should declare if they have a conflict of interest in relation to any proposal. Being an ordinary member of a SIG would not usually give rise to a conflict of interest on a proposal that may benefit that SIG.

If expenditure is deemed urgent and important by the President, such as a major machine failure that needs urgent attention, the expenditure can proceed with the agreement of the Executive. The Committee should be kept informed of such decisions.

Submission to the Guild Committee for Expenditure over \$500

Date	
Person(s) Submitting	
SIG or Name of Person	
Date of Committee meeting that submission is to be considered	
	<i>Please note the Committee convenes on the 2nd Tuesday of every month and a submission must be submitted one week in advance unless it is an urgent matter.</i>
Recommendation	<i>What are you asking the Committee to approve? The proposal must be clear, concise and unambiguous, eg: the committee is asked to approve the purchase of a new Drop saw costing \$850</i>
Summary (60 words or less)	<p><i>Explain what the proposal is about and what it is endeavouring to achieve. The paragraph should be clear and concise.</i></p> <ul style="list-style-type: none"> • For replacement equipment – e.g. A new drum sander is required because the existing large Jet drum sander is broken and is too expensive to repair. • For new equipment – a case needs to be made on the need for and benefits to members. Elaborate in the issues section of the proposal.
